FAA Certificated Repair Station Number IY2R915K

CAPABILITY LIST

Revision Number: 38

Current Revision Date: 26 July 2017

BizJet International Sales & Support, Inc.

Title Page

Original Issue: 10 August 1999

INTRODUCTION

This Capability List contains aircraft by model series, engines by model series, APU's by model series, appliances, instruments, and thrust reversers approved to be worked by the company. Specialized service processes and FAA approved repair processes are also shown in the listing.

Additional ratings may be embodied into this document after a self-evaluation has been performed under 14CFR145.209. Successful completion of a self-evaluation demonstrates that the repair station has the necessary housing, facilities, equipment, material, technical data, processes, and trained personnel in place to perform the work on the item(s).

The completed self-evaluation forms are forwarded to the cognizant OKC FSDO PMI for acceptance. After acceptance, this Capability List will embody the additional item(s) by annual review. Completed self-evaluations, that may contain additional applicable information, are on file in the Quality Office.

In accordance with 14CFR145.215, this Repair Station maintains the capabilities for performing on-site and remote-site field (on-wing) inspection, maintenance, preventative maintenance and/or alterations, as indicated below, on the following type certificated products and/or articles:

Under the Type Certificate Holder, original equipment manufacture model with an asterisk (*) adjacent to their name are not applicable to the Mexico Certificate.

BizJet International Sales & Support, Inc.

FAA Certificated Repair Station No. IY2R915K
